

Boston Alternative Energy Facility

Phase Three Public Information Days

Alternative Use Boston Projects Ltd is proposing to develop a **state-of-the-art power generation plant** at the Riverside Industrial Estate in Boston. The Facility would generate approximately 102MW* of renewable energy from refuse derived fuel (RDF – derived from non-recyclable household waste).

As part of Phase Three consultation, Public Information Days are being held to give project updates and provide Preliminary Environmental Information, giving local communities the opportunity to find out more and share their feedback.
